A. Types of prevention activities...

"Types of Prevention Activities

Child abuse and neglect prevention activities generally occur at

three basic levels:

" Primary, or universal, prevention activities are directed at the general population with the goal of stopping the occurrence of maltreatment before it starts.

" Secondary, or selective, prevention activities focus on families at high risk of maltreatment to alleviate conditions associated with the problem.

" Tertiary, or indicated, prevention activities direct services to families where maltreatment has occurred to reduce the negative consequences of the maltreatment and to prevent its recurrence."

### A. DVD for children & adults...

"Do? TELL! Kids Against Child Abuse is a powerful film, hosted and narrated by prominent Deaf actors Anthony Natale, Robert DeMayo, and Rosa Lee Gallimore, which communicates the reality of child abuse in all its forms. Four brave children tell their true stories of physical abuse, sexual abuse, neglect, intervention, and healing. The actors artfully bring these stories to life for a Deaf audience through American Sign Language. With English voice-overs and English and Spanish subtitles, Do? TELL! Kids Against Child Abuse is a multi-lingual
