Subject: link from National

We have a link on our CO website from our front page....

<http://www.cohandsandvoices.org/>

That says O.U.R. Children's Safety and then it links to:

<http://www.cohandsandvoices.org/our/index.htm>

with two additional links.

Can you re-create that link and subsequent pages (2nd choice: or link to the CO pages)

from our NATIONAL website at www.handsandvoices.org

below is the sentence that should be below Research/Survey Opportunities

Information about Observing Understanding and Responding (O.U.R) to Child Abuse and Neglect

I was waiting to start a section that included more information, but I want to at least get started and we'll expand it ASAP.

Thanks

Janet
